## Revolutionary Human Resource Technology...

Future Achievement International® provides organizations with professional human resource solutions focused on character and behavior assessment, position benchmarking and coaching applications which can be applied to recruitment, employee development and succession planning.

Organizations that are committed to building and sustaining a character foundation will differentiate themselves amongst the competitive landscape for selecting and retaining good people. Companies with this view will attract and retain talented and committed employees.

## Certification Highlights

Participants will be enabled to apply a revolutionary human resource technology built around an **integrated character and behavior assessment tool**. Participants will also be equipped to apply a revolutionary application of **position benchmarking** that provides a tremendous advantage for predicting accuracy of new hires for specific job positions, and overall "fit" of employees within an organization's corporate culture.

Each proprietary instrument is integral to hiring, employee development and succession planning. The solutions provided will help an organization maximize its human capital assets.
